About Me

I am a motivated developer with a solid foundation in full-stack development and a keen interest in problem-solving. Proficient in Java, Python, and JavaScript, I have gained hands-on experience through projects like developing real-time tracking systems and tackling complex algorithmic challenges. I'm eager to join a dynamic team where I can learn and grow while contributing to meaningful projects.

Experience (Projects)

Smart Guard Security Application (June 2024 - September 2024)

College Project

Developed a security app with real-time GPS tracking and multimedia incident reporting.

Simon Game (May 2024)

Personal Project

Developed an interactive Simon Game using JavaScript, HTML, CSS, and Bootstrap, incorporating game logic and UI/UX design.
